REMARKS.

When gold coins have been clipped, or made light by any other process, the following will enable you to ascertain their value—the test is with American silver:

Half Eagle is equal in weight to 31 1/2 cents of silver.
Sovereign is equal in weight to 30 cents of silver.
Napoleon is a shade lighter than 25 cents of silver.

X Thaler is a shade lighter than 50 cents of silver.
Ten Gilder is equal in weight to 25 cents of silver.
Doubleon is equal in weight to 100 cents of silver.

* An American quarter and a fair Spanish sixpence.

Those Coins used in Commerce: such as Sovereigns, 20 Franc Pieces, X Thalers, Spanish and Patriot Doubleons and Dollars, &c., will of course fluctuate, with the difference between demand and supply. Their quotation in this book can only correspond with their value in trade, and what they are actually worth in passing from hand to hand.

It will be perceived that we have reduced the quotations to the gold coins of Central America. Pieces dated 1850, of reduced fineness and consequently of less value, have recently made their appearance. From the close resemblance of the Austrian Half Sovereign and Ducat, persons have mistaken the one for the other, and in order to prevent mistakes in future, we have placed them side by side on page 7

SILVER COINS OF HAYTI.

[The genuine pieces of Hayti are of low silver, and a large number of those in circulation are counterfeit.]

The above is a very good fac-simile (by Wm. Howland) of a note that has been, and is, very extensively altered by the counterfeiters. It has thus far been made to represent various banks, and its being a fac-simile, engraving makes it very dangerous for the public. We advise the rejection of all notes corresponding with this fac-simile.

There are pieces among the Silver Coins, (Bolivian and Peruvian pieces,) which in many cases fall short in weight or fineness, and are not worth what the full weight and standard pieces are. These we have quoted low, to meet the value of the depreciated pieces. Some doubt has been expressed as to the purity of the late issues from the Belgium Mint. We have, therefore, omitted to note their stand-
ard fineness.
